LOOKING BACKWARD.

Gleanings From THE TIMES
Columns a Quarter of a Century Ago—Sept. 3rd, 1884.

Messrs. Courtney & Williams shipped five car loads of hogs last week. During the past 30 days they have bought and shipped 1,184 head.

We are glad to note that J. M. Vaughn and estimable family have permanently located in Butler.

J. E. Owen, living 3 miles south of Butler, while in town on the night of the 27th had his horse stolen from the hitch rack, near the public well, at the southwest corner of the square.

An infant boy, wrapped in an old shawl, was left on the steps of Dr. Pyle's residence Saturday evening. It was found by Mrs. Card, turned over to Marshall Morgan, who in turn gave it to Presiding Judge Lefker.

On Monday, Aug. 25th, 1884, Earl, two-year-old son of Mr. and Mrs. Norman, living about 10 miles west of Adrian, was drowned in a well on the farm of John Riley, where they were visiting.

John T. Smith was a leader of the young Democracy at the Opera House convention last Saturday.

Sam Levy returned from the east.

Chas. S. Ewin, of Deep Water, presented the Bates county delegation in the Congressional Convention at Appleton City with a 45 pound watermelon.

Miss Lou Everingham and Myrtle McBride (now Mrs. Sam Brown and Mrs. E. D. Kipp, of Kansas City,) left for Lexington, Mo., to attend school.

Herrell and Vicinity.

Too late for last week.

Mark Holland has installed a new phone in his house. He made connections with Summit Mutual Line 426.

Fred Smiser and John Hall are cutting corn for W. O. Card; also Earl Oneal for H. A. Wayland.

S. J. Newlon has purchased a new corn binder.

Mr. and Mrs. Johannas have returned to their home in St. Louis, after a visit with his sister, Mrs. John Seelinger.

Misses Mary and Ruth Wayland spent Wednesday with Mr. and Mrs. Fred Gauze on the Titus ranch.

T. C. Jones and August Horn are filling their silos. There are many people who have never seen a silo filled, so the writer will for the benefit describe the best he can. The corn is cut out of the field and hauled to the chopper on an ordinary hay frame. It requires five rails and four teams to haul it in and three men to feed the chopper, one man to throw the fodder from the rack to the table, a man to pick out the weeds and one man to feed the chopper, the silage is blown into the silo by a blower, a great deal like that on a thresher. It requires two men in the silo to pad the silage; after the silo is full, the silo is sealed up air tight like fruit in a jar. After the silage is cured out, it is taken out by a small door every two feet apart. DOC.

FOUR THOUSAND CONSUMPTIVES STARVE YEARLY.

Many Indigent Dying Cases are Being Sent to Southwest.

Cruel and inhuman practices are alleged in a statement given out to-day by the National Association for the Study and Prevention of Tuberculosis against the eastern doctors who persist in sending dying cases of consumption to the Southwest.

Fully 7,130 persons hopelessly diseased with tuberculosis annually come to die in the states of California, Arizona, New Mexico, Texas and Colorado, most of them by order of their physicians. The statement, which is based upon the testimony of well-known experts, and all available statistics, shows that at least 50 per cent. of those who go to the Southwest every year for their health are so far advanced in their disease, that they cannot hope for a cure in any climate, under any circumstances. More than this, at least 60 per cent. of these advanced cases are so poor that they have not sufficient means to provide for the proper necessities of life, which means that 4,315 consumptives are either starved to death, or forced to accept charitable relief every year.

It is not an uncommon thing, the National Association declares, for whole families, who can hardly eke out a living in the East, to migrate to the West in the hope of saving the life of some member of the family. In most instances, the abject poverty of such cases forces them to beg, or to live on a very low level. Often consumptives who cannot afford the proper traveling accommodations are found dead on the trains before reaching their destination. The resources of almost every charitable organization in the Southwest are drained every year to care for cases which would be self-supporting in their Eastern homes.

It cost, on an average, at least \$50 per month for the support of a consumptive in the Southwest, including some medical attention. The National Association strongly urges no one to go to this section who has not sufficient funds to care for himself at least one year, in addition to what his family might require of him during this time. It is also urged that no persons who are far advanced with tuberculosis go to so distant a climate.

Consumption can be cured, or arrested in any section of the United States, and the percentage of cures in the East and the West is nearly the same. Any physician, therefore, who sends a person to the Southwest without sufficient funds, or in an advanced or dying stage of the disease, is guilty of cruelty to his patient. Renewed efforts are being made to stop this practice, and to encourage the building of small local hospitals in every city and town of the country. Attempts are also being made in Southern California and in Texas to exclude indigent consumptives or to send them back to the East.

Profit in New Hotel Law.

Jefferson City, Mo., Sept. 6.—State Hotel Inspector Thomas L. Johnson, whose deputies have been busy, since August 16, when the law creating the office went into effect, seeing that the bed sheets in the rural hotels conform to the nine foot length required by statute, turned \$2,402 into the state treasury as a result of the fees collected up to date.

A number of counties forwarded remittances for licenses issued under the new game and fish law. The remittances indicate a general desire to conform to the law.

Real Estate Transfers.

Warranty Deeds.

J. W. Admire to Farmers Lumber Co part sec 33 Deer Creek twp \$1500.

Mr. and Mrs. Chas. S. Ewen, former wellknown and highly popular young residents of Appleton City, but for a number of years occupying the same position in social circles at Butler, were greeting old friends on the fair grounds Thursday and Friday and while in the city were guests of Mr. and Mrs. W. M. White and Postmaster W. E. Burns and wife. Notwithstanding the pressure upon Charley's time by those who wished to grasp his hand he found time to drop in The Journal office long enough to advance his subscription and to speak a good word for the prairie Queen and her ever loyal and effective friend—The Journal.

The Nerve of Kansas.

Here's a shot that hits the bull's eye, made by the Odessa Democrat: Kansas wants the national government to reimburse her for the losses incurred at the time Quantrell raided Lawrence. My! If Jackson and Lafayette counties were to make the government pay for all the stuff those Kansas Red Legs stole over on this side during the war, it would swamp the nation. It is said that a lot of the Lawrence people got their start by stealing mules, pianos and feather beds from Missourians.

A FARMER'S PROFIT

It's not always what he makes but what he saves. Here is an easy way to save:

Every building you paint lengthens its life and adds to the appearance of your farm. In lengthening the life of your buildings by PAINTING them will save you interest on money invested in new buildings.

Every gallon of

Sewall's Pure Liquid Paint

you use increases your saving, and also by increasing the appearance of your farm by painting, INCREASES THE PRICE PER ACRE. Many people are making fortunes buying up old shabby-looking farms, painting up and selling them again at big profits.

Now is an ideal time to paint—the wood is dry and the weather not too hot. Paint with Sewall's Pure Liquid Paint before cold fall rains comes and you will make a good investment.

We are selling

Galvanized Corrugated Iron Roofing

that has the full weight: No. 28 weighs 85 lbs per 100 square feet; No. 26 weighs 98 lbs. We buy it in car loads and have it in stock at all times.

And remember we handle the best RUBBER ROOFING that money can buy. We have just unloaded another car and therefore have saved the middle man's profit, because in buying in car loads we buy direct from the factory, and also save local freight, which all means a saving to you.

We are selling the

Good, Old Acme Plaster

the kind that never chips off or cracks. WE GUARANTEE IT to do the best work of any plaster made.

We will be at the Bates County Fair—don't fail to see us. We will have something to interest you.

And remember our home is in BUTLER, MO., and we are here all the time looking after your welfare.

LOGAN-MOORE LUMBER CO

BUTLER, MISSOURI.

Last Call for Oxfords

We have placed greater reductions than ever on OXFORDS. We want to sell every pair of low cut shoes we have on hands—and these prices will do it. Think of buying

\$3.50, \$4.00 and \$5.00 Oxfords

FOR

\$2.25

Crossett, Florsheim, W. L. Douglas and many other well known makes. We have your size, too.
